LEVELED A MORO FORT.

American Campaign Against Sultan Bayan Reported Successful.

LOSSES SEVERE ON BOTH SIDES.

General Chaffee Cables the Result Will Secure Respect For the United States on the Island of Mindanao.

Washington, May 5.—The war department received a cablegram from General Chaffee indicating that the campaign against Sultan Bayan, one of the principal Moro chiefs, had been completely successful. The result was accomplished by a gallant assault on the principal Moro fort and its capture after a number of the leading Moros had been killed. The cablegram was as follows:

"Eighty-four survivors at Bayan surrendered unconditionally. Sultan Bayan, Raja Muda Bayan, Sultan Pandapatan and all leading dattos are dead and many of their followers. Assault on the principal fort, which surrendered, one of the most gallant performances of American arms. Colonel Frank D. Baldwin and his regiment deserve all praise for hand-to-hand struggle in four lines of ditches under walls of fort. These trenches are lined with Moro dead from rifle fire. Have never seen or heard of any performance excelling this gallantry and grit.

"It is my painful duty to report that the overthrow of the Moro power was not accomplished without severe loss. One officer and seven enlisted men were killed; four officers and 37 enlisted men were wounded. Will telegraph the list later.

"After the 84 survivors marched out as prisoners, and was understood they were all, eight others who had concealed themselves in rubbish inside the fort made a break for liberty, but none succeeded. Some Moro wounded tried to stab soldiers trying to help them. It is impossible to state the number of Moros killed, many lying in tall grass. The surrender saves us from siege and starving out. Impossible to have carried works without scaling ladders, which were ready. Intend to retain prisoners until two or three small adjacent forts are occupied, then with your consent to retain as hostages eight or 10 of the principals and release the others.

"The force in line of advance consisted of four mountain guns, 470 rifles. This is fully sufficient. Could not have used more men advantageously. Had we sent strong column it would only have swelled the casualty list. One neighboring datto has already presented himself as friend, and I expect a general coming in shortly when the weight of the blow is known. The dead were sent to Malabang for burial. In light of present knowledge, could have besieged the principal forts and in time forced surrender, but that would probably have resulted in a sortie for freedom and escape for many. By attacking them, they have been completely crushed—the only kind of lesson these wild Moros seem to be able to profit by. Shall invite Sultan Tarlac to pay me a friendly visit, if he does not do so of his own initiative. Has fort further east, in plain sight, and of same strength as was Bayan. The result to follow this action is very important, namely: it secures respect for United States authority in the center of Moro savagery."

Regret Resort to Force.

Washington, May 5.—The dispatch from General Chaffee giving the result of General Davis' campaign in Mindanao was a source of great satisfaction to the war officials, although they regretted exceedingly that it became necessary to fight in order to compel submission to the American demands for the surrender of those guilty of the murder of American soldiers. Secretary Root declined to say whether any additional instructions had been given to General Chaffee for his guidance. It is probable that General Chaffee's future action will be left largely to his own discretion. The president has great respect for General Chaffee's tact.

Investigating Spotted Fever.

Helena, Mon., May 5.—Dr. A. F. Longway, secretary of the state board of health, and a party of scientists left here for the Bitter Root valley to inquire into the mysterious malady known as spotted fever, which is causing a panic among the inhabitants of that region. Every case of the disease has been fatal, and up to the present time it has baffled the skill of physicians who have sought to investigate it. Several eminent New York scientists have been invited to participate in the investigation now commenced by the state.

OTEE OF VIRGINIA.

Another Congressman Passes Away. His Career.

Washington, May 5.—Congressman J. Otey of the Sixth Virginia district died in Lynchburg, his home, Sunday afternoon. Word to this effect was received at the sergeant-at-arms' office of the house of representatives. Mr. Otey had been named as a member of the committee to accompany the remains of the late Congressman Cummings to New York, but he notified the speaker that he was too ill to attend. Mr. Otey was a Democrat. Mr. Otey was well known in the south as a business man before he came to congress. He was interested in railroads, banking and insurance. He had been active in the politics of his state since 1869, but never held office until 1894, when he was elected to the house of representatives, since which time he has been a member of that body. He was born in Lynchburg in 1840, and was graduated from the Virginia military institute. While a cadet he participated in the defense of Virginia in the John Brown raid. After graduating he became a civil engineer. In 1861 he joined the Confederate army, and participated in the western campaign, culminating at Donelson and Shiloh.

Cummings Funeral Services.

Washington, May 5.—In pursuance of the resolution adopted by the house, public memorial services were held over the remains of the late Representative Amos J. Cummings of New York in the hall of the representatives Sunday afternoon. The exercises were very impressive. Almost the entire membership of the house and senate was present, and the galleries were entirely inadequate to hold the thousands who went to the Capitol seeking admission. Delegations from the department of New York Grand Army, Typographical Union No. 6, the New York Pilots' association and various letter-carriers associations were in attendance. The floral tributes were numerous and of the most exquisite character. Upon the casket rested large wreaths of white carnations and purple orchids. The services were simple and solemn, consisting of addresses and appropriate musical selections.

Fired by Lightning.

St. Louis, May 5.—A terrific storm of wind and rain prevailed in this city and vicinity, causing considerable minor damage. Lightning resulted in several fires, one of which destroyed the machine shop and a section of the foundry of William and Phillip Madart's patent pulley plant in South St. Louis. The loss is estimated at \$300,000. In all parts of the city trees, fences, signs, awnings, etc., were blown down and other damage done by the wind, which came in terrific gusts. The wind at one time reached a velocity of 65 miles an hour, and for the five succeeding minutes blew at the rate of 52 miles an hour, after which it moderated.

Stood Off the Mob.

Washington, May 5.—First Assistant Postmaster General Wynne received the first word that has come direct to this country from any of the officers of the United States steamship Chicago, arrested in Venice. It was from his son Frank, who is captain of the marines on the Chicago, and was in response to cablegrams sent when the first news of the affair reached this country, and evidently was dispatched at the first opportunity. The cablegram stated that the sender had defended a brother officer from an attack by a mob, and that there was no occasion for worry.

Mishap to Alan-a-Dale.

Louisville, May 5.—It is said that Alan-a-Dale, who won the Kentucky derby Saturday, may never race again. Whether or not the colt is permanently broken down has not been definitely determined. The exact seat of his lameness has not been located, but the animal is in considerable pain. Thomas McDowell, owner of Alan-a-Dale, says the horse will not start again at the Louisville meeting. After the derby Saturday it was found that a tendon in his foreleg had given way from his trying to save his left knee, which has given him trouble for some time.

The Gardner Case.

Washington, May 5.—A cablegram from General Chaffee relating to Major Gardner, stated that a board consisting of Colonels Wint and Duncan of the federal army, were investigating the charges made by Major Gardner. Mr. Spooner, commenting upon this cable, said that it was improper to insist that Major Gardner should be brought here, while the investigation was pending.

Evans Nominated.

Washington, May 5.—The president sent the nomination of H. Clay Evans to be consul general at London, to the senate.

EXTREMELY DELICATE.

Senator Hanna Characterizes the Situation in the Anthracite Region.

PEACE CONFERENCE A FAILURE.

Meeting of the Executive Committee of United Mine Workers Called by President Mitchell—A Huge Strike Imminent.

Philadelphia, May 5.—Senator Hanna, in an interview here, characterized the situation in the anthracite coal region as extremely delicate, and for that reason said it would be unwise for him to express an opinion as to the probable result of the meeting of the executive committee of the United Mine Workers for the three anthracite districts called for next Wednesday at Scranton, Pa., by National President John Mitchell. Senator Hanna said he was officially notified by Ralph M. Easley, secretary of the National Civic Federation, of the statement issued by President Mitchell in New York. He immediately wired Mr. Easley, instructing him to refrain from calling another meeting of the conciliation committee, as that procedure would be useless in view of the latest developments.

Senator Hanna said he had been awaiting a report from the subcommittee of the conciliation committee, but that Mr. Mitchell's statement had anticipated it. The work of the conciliation committee was ended, said the senator, when it brought together the operators and the representatives of the miners' union, and he added that nothing more could be done unless there were some new developments.

"I want to emphasize the fact," continued Senator Hanna, "that the conferences between the operators and miners were satisfactory. Three conferences were held and the proceedings were conducted in the best spirit. I think the operators formed a favorable impression of Mr. Mitchell and gave him credit for honesty and sincerity in his efforts to change the conditions of the miners. On the other hand, Mr. Mitchell appreciated the consideration shown him and the interests he represents. Unless a bitter and protracted strike should occur, I believe much good will come out of the conference. I am of the opinion that they will lead to better conditions between capital and labor.

"The peculiar situation of the anthracite mining industry," continued the senator, "makes the proposition most difficult. The combination of the railroad and mining interests brings forward the question of tonnage, and this, with threatened competition from the enormous production of bituminous coal, constitute matters which must be considered. This is the foundation of the operators' argument. It is not a mere selfish interest that impels them to the stand they have taken, but the proposition is difficult to explain to the rank and file of the workers in and about the mines. It is my hope that when they are educated to understand these conditions they may be considerate and not governed by prejudice in future actions."

Strike Anticipated.

Hazleton, Pa., May 5.—The impression prevails among the miners of the Hazleton district that there will be a general strike as a result of the failure of the operators and the representatives of the United Mine Workers to come to an agreement. If the district executive boards decide on Wednesday at Scranton to order a suspension of work, the members of the union hereabouts will, it is believed, obey the order to a man. It is conservatively estimated that three-fourths of the employees in and about the mines in this region are organized, and if a strike is declared operations will be brought to a standstill at every colliery.

Ready to Go Out.

Shamokin, Pa., May 5.—Local members of the special miners' committee have returned from New York. They were discouraged over the refusal of the operators to grant an eight-hour workday, the weighing of coal at the mines and an increase of wages. Notice has been sent to members of this (the Ninth) district executive board to go to Scranton to decide whether to call a strike or order a general convention of miners to resolve how to treat with the situation. The board from this district will go to Scranton Tuesday. In case of a tie-up 52,000 men and boys will be rendered idle in the Ninth district.

New York, May 5.—Reports from Ellis Island show that 13,000 immigrants have arrived in this city from Europe within 48 hours. This breaks all previous two-day records in the history of the immigration bureau.

POTTER PALMER.

Famous Chicago Millionaire Is Dead. Sketch of His Life.

Chicago, May 5.—Potter Palmer, for nearly half a century one of Chicago's most prominent business men, died Sunday evening at his residence on Lake Shore drive. The exact cause of Mr. Palmer's death has not yet been determined. He had been suffering for several weeks from a nervous disorder, but as he was able to be about the house his condition was not thought to be serious. When he retired Saturday night he was feeling, if anything, better than for several days. During the night, however, he seemed to lose all his energy, and in the morning was unable to leave his room. He gradually grew weaker during the day and at 5:40 o'clock Sunday evening he suffered a sudden collapse, from which he expired.

Potter Palmer was born in 1826 in Potter's Hollow, Albany county, New York. He received a common school education, and at the age of 18 engaged as clerk in a store at Durham, N. Y. He removed to Chicago, where he established a dry goods firm. This firm afterward became Field, Palmer & Leiter. After disposing of his dry goods interests, Mr. Palmer invested largely in Chicago real estate. When the fire came in 1871 he owned 82 structures on State street, every one of which was destroyed. His faith in Chicago was unshaken, and he borrowed enough money to enable him to reconstruct the buildings that had been destroyed. His real estate holdings continued to increase in value until today his fortune is estimated at \$25,000,000.

Another Water Cure Witness.

Washington, May 5.—L. E. Hallock of Boston, formerly a sergeant and then a private in Co. 1, Twenty-sixth volunteer infantry, testified before the senate committee on the Philippines concerning the practice of the water cure in the Philippines archipelago. Mr. Hallock told of the infliction of the water cure upon a dozen natives at the town of Leon, province of Panay. He said they were captured and tortured in order to secure information of the murder of Private O'Hearne of Company 1, who had been not only killed, but roasted and otherwise tortured before death ensued. Captain Glenn, in charge of a scouting party, had first secured a confession of participation in this crime by one native who had implicated 12 others. These were, the witness said, taken to Leon, where his company under command of Captain Gregg was stationed and there on the 21st and again on the 23rd of August, 1900, the cure was administered.

Awful Slaughter of Chinese.

Victoria, B. C., May 5.—News has been brought by the steamer Olympia from the Orient of further successes by the Kwang-Si rebels, whose growing armies were besieging Nanking on the West river at last reports. Fugitives who were flying to Canton from the scenes of bloodshed and pillage. The slaughter in Ching Sang Pui, when that city fell, was awful. More than 1,000 persons were killed and their bodies left lying unburied in the streets, while the rebels burned and looted the stores and houses. Terrible slaughter is also reported from other captured towns. Several thousand of the imperial army are said to have deserted.

Sensational Suicide.

Chicago, May 5.—Thomas Gregor, a real estate dealer committed suicide in a sensational manner. He was one of a crowd at the Wrightwood avenue station of the Northwestern elevated road. When the train approached, he jumped from the platform and fell across the rails. By a desperate effort the motorman succeeded in stopping the train. Gregor was hoisted back to the platform, but so soon were his arms released that he stabbed himself several times in the neck. The jugular vein was severed and he died within a few minutes. No cause for the act is known.

Hoadly May Become Blind.

New York, May 5.—There is grave danger that former Governor George Hoadly of Ohio, who defeated Senator J. B. Foraker in 1883, and who now is a partner in a law firm in this city, will lose his sight. Although Mr. Hoadly is otherwise in robust health, his eyes have troubled him recently to such an extent that he has been unable to go to his office for more than a month. Governor Hoadly is under treatment by specialists, who still have hope of saving his sight. His optic nerve is affected.

New York, May 5.—Dr. Keyes, who is in attendance on Archbishop Corrigan, announced that his patient was still in a dangerous condition and that there was a possibility that he would be worse. There are no favorable indications, and there is much concern over the archbishop's condition.

THREE NEW STATES.

Bill For the Admission of Territories Likely to Pass the House.

A VOTE PROMISED ON TUESDAY.

Republican Senators to Defend the Administration's Philippine Policy—Two Appropriation Propositions Up.

Washington, May 5.—The principal feature of the program in the house this week will be the bill to place three new stars in the American flag. The omnibus bill for the admission of Oklahoma, New Mexico and Arizona to statehood will be called up on Tuesday. The friends of the bill do not desire protracted debate on it, and will try to secure a vote on that day. There is considerable opposition to the bill on the Republican side of the house on the ground that the territories are not yet fitted for statehood, but the friends of the bill entertain no doubt of its passage. The Democrats in caucus agreed to give it their united support, and at least 60 Republican votes are counted on. After the statehood bill is disposed of war claims will be given attention, and then the naval appropriation bill will be taken up. Three important measures of general legislation—the Holl financial bill, terminating the coinage of silver dollars; the Ray anti-anarchy bill, and the Shattuck bill codifying and extending the immigration laws—are to be taken up when opportunity occurs.

In the Senate.

Washington, May 5.—Republican senators this week will relieve the Democrats of the necessity of supplying all the speakers in the senate on the Philippine government bill. Senator Lodge, chairman of the committee on the Philippines, will open for them with a set speech in support of the administration's Philippine policy, with incidental reference to Major Gardener's report and other special phases of the Philippine question. Other Republican senators who have indicated a purpose to address the senate on the pending question are Messrs. Foraker, Spooner, Burton, McComas and Platt (Conn.). There probably will also be other Republican speakers. The Democratic members of the committee on the Philippines have no fixed plans except to have the debate on the bill continue for the present. They decline to estimate the time necessary to conclude consideration of the bill. Other measures which will receive attention during the week are the sundry civil appropriation bill and the bill providing for the opening to settlement of the Rosebud Indian reservation in South Dakota.

Airship a Success.

Paris, May 5.—In spite of threatening weather Senator Augusto Severo, the Brazilian aeronaut, made a successful first trial with his airship at Vaugrard Aerostatic park. Senator Severo's airship is called La Paix. The balloon, held by a rope, ascended 40 meters. The motors were then started. The balloon obeyed the impulse of its propellers, steering easily and maintaining perfect equilibrium. After maneuvering for a short time Senator Severo safely returned the airship to its shed. La Paix is not unlike Santos-Dumont's airships in appearance, but it differs from them in many details. The gas capacity of La Paix is nearly four times greater than that of Dumont's airships. It has three main propellers and two smaller ones used for steering and in ascending and descending. The two petroleum motors of La Paix are of 24 and 16-horsepower respectively.

Hay and Root Praised.

New York, May 5.—John D. Long, former secretary of the navy, who is in this city, says he does not anticipate an immediate change in the cabinet. "There has been more or less gossip," he said, "about Secretary Hay and Secretary Root retiring. I think they will remain. Secretary Hay has been very successful. His services to the country have been extraordinary, and his administration of the state department has been marked with many brilliant achievements. Secretary Root is a man of unusual ability and force."

Bollers Condemned.

San Francisco, May 5.—The transport Grant will not be able to make the trip to Manila that she was scheduled for on the 18th of this month. The Grant's bollers have failed to stand the test to which they were subjected by inspector of bollers John Bulger and her hull is so weak that it will take a good many new plates and a whole lot of general structure strengthening before she will be ready to serve as a transport again.

A REPRESENTATIVE of the meat trust thinks the "poor white man and the negro" ought to leave such luxuries as porterhouse steak for those who have "ample means." This trust representative forgets, however, that the advance in the price of meats is not confined to porterhouse steaks. The combine are out for the stuff, and rob the poor as well as the rich.

THERE is no other destiny for the United Kingdom, says Andrew Carnegie, but annexation to the United States. "She must look across the Atlantic to the children of her own blood and finally enter the Union as six or eight States—Scotland, Ireland and Wales, each one, and England divided into two, perhaps three." And that would mean of course that the rest of Europe and of the globe would eventually be taken in under Uncle Sam's protecting wings.

THE omnibus public buildings bill recently passed by the House and which contains an appropriation of \$30,000 for a building in Maysville will not be acted upon by the Senate Committee for ten days out of courtesy to Senator Scott, of West Virginia, who is compelled to be absent from Washington for that period. The Senate Committee are disinclined to make any material additions to the bill. Senator Fairbanks has been subjected to some criticism for the liberal appropriations embodied in the measure for Indiana, but which in reality were put in the bill by members of the House. It is not probable, however, that any of these appropriations will be taken out of the bill when it is put on its final passage by the Chairman of the Senate Committee. An effort will be made to increase the appropriation for Maysville to \$30,000 or \$75,000.

"A HIDIOUS TRUST."

SOME Republican papers were disposed at first to make light of the talk against the meat trust, but they have suddenly realized, it seems, that it's a dangerous move on their part, and some of them are now denouncing the combine in unmeasured terms. Here's the New York Tribune, the biggest and bitterest of them all, scoring the trust in this fashion:

As for the prices of meats, there is probably no room for doubt that they are being artificially forced up by monopolists in order to make increased profits out of the necessities of the people. This is a grave indictment. There could scarcely be a more serious one. Granted that natural conditions have made the production of beef more costly, it is impossible to discover that they have done so to anything like the degree indicated by the rise in market prices. If the beef trust has been moved to raise prices because of scarcity of food or any such thing, its rule appears to be to raise the price two cents for every one cent of actual increase of cost. The belief is now pretty generally entertained that the "trust" is artificially and arbitrarily putting up prices, and is doing so with the intention of keeping them up. It will put them up to an almost prohibitive figure, and then gradually reduce them, leaving them at a figure considerably higher than they were before the rise began. Thus it will appear to have reduced prices when it was able to do so, and will hope thus to allay popular clamor, while at the same time effecting for itself a large net gain.

Mr. Laurance Phister is reported ill in Cincinnati where he is attending school.

The Knights Templar Club will entertain on the evening of Friday, May 9th. This will be the last and best of a very pleasant series of receptions.

Mr. W. D. Hixson spent Saturday and Sunday with Mr. Benjamin Longnecker, of the county. En route through Washington he pointed out the building where he taught school about fifty years ago.

The Alexander livery stable outfit was sold Saturday by the assignee for \$2,510, Mr. R. H. Pollitt, of this city, and his son, Mr. James Pollitt, of Mt. Carmel, being the purchasers. The sale to the Messrs. Pollitt included all of the outfit except one of the fine hacks which was bought by Wells & Coughlin. They will continue the business at the present stand. Their many friends wish them success in their new venture.

NEWEST....

Of the New!

Mattings with the salt sea smell still on them. Fresh from the plodding Chinese toilers and their progressive Jap neighbors. Mattings have an all-year-round usefulness. Clean, fresh looking, cool in summer—then a few rugs and they are ready for winter service.

These we tell of are the well made, durable kinds, jointless and reversible. Doubtful if better matting news was ever printed.

15 CENTS.

For beauties—heavy and long wearing.

19 CENTS.

For mattings with no better wear perhaps, but more exclusive and artistic patterns.

25 CENTS.

For gems. Cool and restful looking. Were we inclined to rhapsodize we'd call these mattings poems in Oriental colors.

D. HUNT & SON

CARPETS!

Are not bought everywhere with satisfaction. In fact they are rarely bought with entire satisfaction. You expect to live a good while with the carpet you buy, therefore careful selection pays. It is sometimes difficult to get variety, artistic designs, low prices and reliable goods at one store. Hunt's is an exception to the usual carpet store because here you find the coveted combination, variety, choice patterns, low prices. Hunt's is an exception in another particular—carpets here are always bought with satisfaction.

One
Detail To-day!

We have forty patterns of Stinson's Brussels Carpet for 75c. a yard instead of the usual 90c. or the occasional \$1. The patterns are extremely pretty, the colors in most effective combinations. If you buy one of these carpets you cannot be dissatisfied—they are reliability through and through.

KENTUCKY ENDEAVORERS.

List of the New Officers Chosen at the State Convention at Cynthiana Saturday.

The annual State Christian Endeavor convention closed last evening at Cynthiana. Maysville's representatives were elegantly entertained by the good people of Cynthiana during their stay in that hospitable city.

The annual election of officers resulted as follows: President, F. M. Tindler, of Carlisle; Secretary, Miss Alice Burgin, Burgin; Treasurer, C. A. MISS ROSE OWENS,

No. 720 Seventeenth St., WASHINGTON, D. C.

"If every suffering woman has the same experience with Wine of Cardui that I had, your medicine will be most popular. About a year ago I began to have a worn out tired feeling with lassitude, pains in the back and head which kept increasing every month. I felt that I needed something, but to get the right medicine was the trouble. I finally decided on your Wine of Cardui and only needed to take three bottles when I was fully recovered."

If you are a suffering woman we would say to you that Wine of Cardui seldom fails to completely cure any case of female ills. We say emphatically, it never fails to benefit. Every day hundreds of sufferers are writing to our Ladies' Advisory Department. The letters are opened by persons competent to give advice. Mrs. Jones was cured by following the advice which was freely given her by the Ladies' Advisory Department. Miss Owens was cured without advice by just buying a \$1.00 bottle of Wine of Cardui from her druggist and taking this great medicine in the privacy of her home. No doctor's examination, treatment or advice is necessary. You have read what these two cured women have written. Is this not enough to lead you to determine to be rid of suffering?

WHEN Miss Rose Owens, who has a responsible position in the Government service at Washington, D. C., decided to try Wine of Cardui, she made a wise choice. Over a million women have been relieved of female weakness by this same Wine of Cardui. It is not a strong medicine but may be taken every day in the year by any woman with benefit. It does not force results, but corrects derangements of the menstrual organs. It strengthens the nervous system, gives tone to the bodily functions, acts directly on the genital organs, and is the finest tonic for women known to the science of medicine.

August 13, 1900, Mrs. W. H. Jones, of Cameron, Mo., writes: "I suffered terribly at monthly periods for three years. I would sometimes go for seven months with no flow at all. Now I have my health back again and am expecting to be confined in January. I cannot praise your medicine enough."

WINE of CARDUI

A million suffering women have found relief in Wine of Cardui.

A Little Aberdeen Boy Has Leg Amputated Second Time—Took no Anesthetic.

[Aberdeen Gretna Green, May 2nd.]

A remarkable instance of patience and fortitude under severe trial was furnished by little Johnny Beecraft, who, several months ago had to have his right limb amputated, and again on last Friday morning in the operating room of Dr. Taulbee, of Maysville, had to submit to an almost similar experience.

Johnny refused the anesthetic and, in reply to the question the Doctor asked him before beginning the dangerous operation, "Johnny, did you pray to the Lord this morning?" the little fellow answered, "Yes sir, I did, and as he was with me the first time, so I feel he's going to be with me again." Johnny bore up like the hero that he is.

The operation was quickly and skillfully performed by Dr. Taulbee in the presence of several disciples of Esculapius and Rev. Winkler, who accompanied Johnny by special request. All indications now point to the lad's speedy and entire recovery, which good news his many friends will be greatly pleased to hear.

A DESTITUTE FAMILY.

A Case Appealing to the Sympathies of the Charitably-Inclined People of the City.

The BULLETIN is asked to call attention to the destitute condition of a family by the name of Dunn living on Short street. Recently the mother and two children died, leaving the father, who earns wages of only \$4 per week, to care and provide for the remainder of a large family, which consists of a number of children of tender age, two of whom are now ill. Of this munificent salary \$1 is required to pay the doctor and another must be paid for rent. What is left will not provide the most meager food for so many, to say nothing of clothes to cover the children's nakedness.

The father cannot even remain at home to care for his sick, and, taken altogether, this is one of the saddest instances of poverty that ever came to the notice of the writer. Charitably-inclined citizens will surely see that this miserable family's condition is promptly relieved.

Board of Trade Directors.

The Directors of the Board of Trade are notified to meet this Monday evening at 7:30 o'clock in the Secretary's office at Cox Building.

Mrs. Ellen Boone, who was indicted at the present term of Circuit Court at Falmouth on the charge of murdering her husband by poisoning, was Saturday released on her own recognizance. Sanford Sharp, jointly indicted with her, is still in jail in default of bond. The case will be tried at the October term of court. Mrs. Boone was arrested in this city.

Mr. James Marshall is quite ill at his home at Washington.

Henry W. Ray has started his soda water fountain for the season.

Call at Armstrong's for a nice cool soda. Fountain now open for season.

BECKETT DISCHARGED.

Warrant Against Him for Shooting William Crawford Dismissed.

The examining trial of Boone Beckett for shooting and wounding Wm. Crawford resulted in the dismissal of the warrant and the discharge of the accused.

The trial began Friday and was not completed until after supper Saturday evening. L. W. Galbraith assisted Attorneys O'Donnell and Wood for the Commonwealth in the prosecution of the case, while L. W. Robertson and M. A. Ruggles appeared for defendant.

The evidence disclosed the fact that Beckett was on his knees when the shooting was done, and that Crawford was standing over him in the act of striking him when the first shot was fired, which is supposed to be the one that penetrated the hand. Crawford turned and was running from Beckett when the other shots were fired.

The arguments were made by Mr. Galbraith, Mr. Robertson, Mr. Ruggles and County Attorney O'Donnell.

Crawford still lingers in a helpless condition, his body being paralyzed from the point of the wound in the spine down. He has been growing worse the last few days.

DIED SATURDAY EVENING.

Mrs. John Kabel Passes Away After an Illness of Three Months—Funeral This Morning.

Mrs. Katherine B. Kubel, wife of Mr. John Kubel, died Saturday evening at 6:30 o'clock at the home of the family on Market street, after an illness of twelve weeks with throat trouble.

Mrs. Kubel was a daughter of Patrick and Margaret McHugh, and was twenty-five years old. She was a native of this county and a most estimable woman. Her husband and father survive her, and she leaves three brothers,—Frank, of this city, W. T., of Augusta, and John M., of Hillsboro, O.

The funeral took place this morning at 9 o'clock at St. Patrick's Church, after which the remains were laid to rest in the cemetery at Washington.

Rev. Dr. Boyet of this city has been appointed one of the delegates from Kentucky to the approaching Southern Baptist convention.

If you want to purchase the purest and best goods on earth go to G. W. Rogers & Co., 127 Market street, where you will find old Bourbon and rye whisky, apple and peach brandy, California brandy, malt gin, California port, sherry and Maderia, K. I. sweet Catawba and dry Catawba wines &c. We guarantee all of our goods to be strictly pure.

Mr. Frank Cady left Sunday morning to assume the position of manager of the Western Union telegraph office at Newport. Mr. Cady is an expert telegrapher and a young man of excellent habits. His many friends here congratulate him on securing this position, and wish him success in his new home. The position was secured through Mr. P. H. Williams, local manager of the Western Union.

The monthly meeting of the City Council will be held this evening.

Squire Dresel has moved his tailor shop to his office at 119 East Third street.

Mr. and Mrs. Joseph Earnshaw, of Columbus, O., but formerly of Dover, are rejoicing over the arrival of a little daughter.

Mr. Jas. C. Adair, of this county, purchased of Jas. Allison thirty acres of land on the Ford's Mill pike, Bourbon County, at \$65 per acre.

E. E. Galbraith, of Ripley, has sold to the town of Dover about eight acres adjoining the Dover Canning Company's property for \$500.25 cash.

The last issue of the Cincinnati Clinic contains an elaborate and very interesting paper by Dr. A. N. Ellis, of this city, on "The Borderland of Insanity."

There were seven additions to the Christian Church at the services last evening—Hon. E. L. Worthington and wife, Mr. Nelson Bryson, his daughter, Miss Emma, and his three sons—James, William and Albert.

Mr. Henry McClanahan, chief engineer of the City of Louisville, and Mr. Harry Crawford, assistant, who have been spending a few weeks here with relatives, left Saturday to take charge of the throttle of the elegant steamer.

The Gentry & Galey Oil and Gas Company shot their eighth well on the Ragland farm in the Bath oil fields Friday, resulting in a fine flow of oil and natural gas. The company claims it will produce enough gas to run all the machinery in the entire Ragland field.

Mr. William Crawford, while breaking rock on the pike on Tuckahoe recently, had the ball of one of his eyes mashed and the sight entirely destroyed. The eye ball will have to be removed to save the sight of the other eye. He is sixty years old and has a number of relatives in Maysville.

To-night the Vaught Comedy Company begins a three-nights engagement with Wednesday matinee, at Washington Opera House, opening in the sensational comedy-drama "A Gambler's Wife." Ladies will be admitted free to-night, under the usual conditions. Secure seats in advance at Nelson's.

The Lexington Chapter, Daughters of the American Revolution, sent to Manila 415 books for the Kentucky alcove in the public library there. Lexington chapter was assisted in the collection by the Bryan Station chapter, the Evans Shelby chapter of Owingsville, and the Jemima Johnson chapter of Paris.

The fourteenth General Conference of the Methodist Episcopal Church, South, will meet in Dallas, Tex., Wednesday, and will probably continue in session throughout the entire month. This marks the one hundred and seventy-third year since the name "Methodist" was given the Brothers Wesley and other young men of the "Holy Club" at Oxford.

Alfred Bryson, aged about sixteen, died Saturday afternoon at the County Infirmary, of consumption. He had been an inmate of the institution only a month or so. The funeral service was conducted Sunday at 3:30 o'clock at the infirmary by Elder R. E. Moes, of the Christian Church, after which the remains were buried in the Maysville Cemetery. He was a son of Nelson Bryson, who lives on the Chamberlain farm near Lewisburg, the family having come to this county from Fleming.

Early Melon Seed!

The early melon gets the price. The bigger and earlier the melon the more price. Seeds that grow big melons early don't cost any more here than you pay for the uncertain ones elsewhere. If you are in the truck business for your health, you'll not want our melon seeds—they're for those in business for revenue.

We have all the old melon favorites—Light and Dark, Iceing, Long Dixie, &c.

In Canteloups—Jenny Lind, Rocky Ford, Cape May, Hackensack, Anne Arundel, Osage.

Going to plant Sugar Corn? We have every good variety. All our seeds are from LANDRETH, which means they're the best to be had.

The following announcement from the Shelby Sentinel will be of interest to friends here: "The engagement of Miss Martha Martin Thomas, of this city, to Mr. Clarence Clifton Hieatt, of Louisville, is announced, and they will be quietly married early in June at the Christian Church here. Miss Thomas is a daughter of Oswald Thomas, of Eminence, and the granddaughter of the late J. L. Long. She is one of the most popular of our younger society leaders, and her host of friends will congratulate Mr. Hieatt on his good fortune. Mr. Hieatt is a practicing attorney in Louisville, and the young couple will make their future home in that city." The prospective bride is a sister of Mrs. Howard T. Cree, whom she visited on several occasions during the latter's residence in this city. Miss Thomas' many Maysville friends unite in congratulations and good wishes to the happy couple in advance of the nuptials.

HON. A. D. POLLITT.

Death of a Former Representative From Lewis County—Passed Away Sunday.

Hon. A. Dud Pollitt, who represented Lewis County in the lower branch of the Kentucky Legislature a few years ago, died at his home at Tollesboro Sunday.

While he had been in feeble health for a year or two his death was very sudden.

His wife, who was a Miss Walker, and who has a number of relatives in Maysville, survives him, with one son.

Called meeting of the Red Men at the Wigwam at 6:30 o'clock this evening to confer the Chief's degree. Following this the Haymakers will have a big meeting. Large delegations are expected from the neighboring lofts. There will be a parade, the initiation of several candidates, followed by a banquet at Wallace's.

FRANK OWENS HARDWARE COMPANY

CINCINNATI TOBACCO MARKET.

Very Light Offerings and Receipts the Past Week. But Prices Remain Unchanged.

	1902.	1901.
New (bbls).....	465	1,780
Old.....	272	54
Total offerings.....	677	1,834
Total receipts.....	118	296
Total actual sales.....	559	1,538
Total receipts.....	338	1,107

The 405 bbls. new tobacco averaged \$6.27 per 100 lbs., as against \$5.97 for the 660 bbls. last week and \$6.74 for the 1,780 bbls. in the corresponding week last year.

The 272 bbls. old tobacco averaged \$7.64 per 100 lbs., as against \$8.90 for the 54 bbls. last week and \$7.50 for the 54 bbls. in the corresponding week last year.

Extremely light offerings and receipts marked the sales on the burley breaks during the past week. The quality of the tobacco now coming on the market is below the average, and, as much of it is moist and in soft order apparently, all things combined to make a dull and featureless market throughout the week. Prices showed little if any change, although some irregularity was evident in tobacco ranging under \$11 in both the old and new crops.

In new tobacco a very large proportion of the offerings were of the low grades and inferior sorts. The red types, from \$6.50 to \$10, were very irregular. Medium and good color lugs, from \$6 to \$8.50, and color leaf, from \$8 to \$11, were the strongest spots in the sales.

A few packages of redried new were scattered through the breaks, and excited animated bidding, although the quality did not come up to buyers' expectations. There was an almost entire absence of fine to fancy leaf, a few packages selling at \$12 to \$14.50, and one bringing \$23.75, which was the top price of the week.

Little if any change is to be noted in the prices on old tobacco. There was a better variety of

the different types than last week. Common and medium cutting leaf from \$6.50 to \$9, and choice leaf, around \$11, were the best sellers. Fine leaf and choice cutting were extremely scarce, a few packages selling at from \$17.25 to \$18.50.

After May 15, when the redried tobacco are expected to make their appearance in larger quantities, a better and much stronger market is expected.

INSTANTLY KILLED.

Two Strangers Run Down by a Passenger Train Near Cincinnati.

Cincinnati, May 5.—Two unknown men were walking on the track and Baltimore and Ohio passenger train east of Cumminsville station. The men were walking on the track and stepped from behind an eastbound freight to the westbound track so close to the engine that death was inevitable. No clue to their identity was found on their bodies.

One of the men is supposed to be George H. Moody of Hollister, Ohio. He was about 35 years old. The other, about 65 years old, had a card with the name of Wilbert H. Miller. He is supposed to have come from Herr's Island, Allegheny county, Pa. Moody had a United Mine Workers card in his pocket.

Baltimore, May 5.—Robert J. ("Do") Slater, for many years prominent in Democratic politics in this city, died here. He attained a national reputation as the proprietor of the famous Ocean club at Long Branch, N. J., which was closed by the authorities several years ago.

PLUMVILLE, May 3.—J. Fogarty, of Cincinnati, spent the past week with his wife and children who are guests of her parents, Mr. and Mrs. Welsh.

D. B. Jenkins and his little son, Master Walter, of Maysville, came up Friday to spend a few days with relatives near here.

A. L. Redman returned to his home Friday after a few weeks sojourn with relatives to the county.

There is a fine prospect for fruit in this section.

"Have by some surgeon Shylock on thy charge to stop his wounds lest he do bleed to death." People can bleed to death. The loss of blood weakens the body. It must follow that gain of blood gives the body strength. The strengthening effect of Dr. Pierce's Golden Medical Discovery is in large part due to its action on the blood-making glands and the increased supply of pure, rich blood it produces. It is only when the blood is impoverished and impure that disease finds a soil in which to root. The "Discovery" purifies the blood and makes it antagonistic to disease. When the body is emaciated, the lungs are weak, and there is obstinate lingering cough, "Golden Medical Discovery" puts the body on a fighting footing against disease, and so increase the vitality that disease is thrown off, and physical health perfectly and permanently restored. It has cured thousands who were hopeless and helpless, and who had tried all other means of cure without avail.

Twenty-one one-cent stamps to cover expense of mailing only will obtain a copy of Dr. Pierce's Common Sense Medical Adviser, 1008 pages, in paper cover. Send thirty-one stamps if cloth binding is preferred. Address Dr. R. V. Pierce, Buffalo, N. Y.
